

## Junior Specialist

The Department of Electrical and Computer Engineering in the College of Engineering at the University of California, Davis invites applications from qualified candidates for Junior Specialist position.

Junior Specialists have a narrow focus in a specialized area and provide technical or specialized planning and execution of a research project. Junior Specialists are required to be actively and significantly involved in publishable research activities. Junior Specialists are also expected to participate in appropriate professional/technical societies or groups and other educational and research organizations as well as review research proposals, journal manuscripts, and publications as applicable.

Junior Specialist positions are available in the Millimeter Wave Plasma Diagnostics Group, University of California Davis, led by Professor Neville Luhmann.

For a full description of this position, the required qualifications, and to submit an application, please visit the UC Davis Recruit site.

Junior Specialist, Position JPF04462: <https://recruit.ucdavis.edu/JPF04462>

Position are open until filled, with first consideration given to applications received by the initial review dates indicated in the Recruit position listing.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see:
